

AtlantiCare Medical Arts Pavilion Phase One – Commissioned Work

The Healing Arts Committee at AtlantiCare is seeking design proposals for two commissioned art pieces, which will be featured in our new AtlantiCare Medical Arts Pavilion, located in Atlantic City, NJ. A hanging mobile sculpture will hang in the glass-fronted vestibule at the front entrance to the building and a series of work will create a gallery experience along an expansive space that includes three walls.

The theme for the building and the art is healing through nature showcasing classic, contemporary design with a nod to the beach and boardwalk of the Jersey Shore, in particular the Atlantic City area. The committee is open to ideas by artists to express the concept of a natural world that may be related to interfaith, inspiring, and multicultural imagery that is appropriate for a healing environment and follow our overarching theme of healing through nature.

The committee is seeking artists who reside in the State of New Jersey or the County of Philadelphia who are interested in providing inspirational, healing and uplifting artwork.

The artwork is being funded by AtlantiCare as part of its commitment to including appropriate regional art in its facilities as a component of creating a healing environment for patients, visitors and staff.

All inquiries should be addressed to Cheryl Broschard, Foundation Project Manager. **Inquiries should be made by email only** to cbroschard@atlanticare.org

ABOUT ATLANTICARE’S HEALING ARTS PROGRAM

Studies have shown that the arts can reduce stress and improve the patient experience. With this in mind, AtlantiCare launched a “*Healing Arts Program*” with the opening of the Roger B. Hansen Center for Childbirth and new Emergency Department at the AtlantiCare, Mainland Campus in 2003. Through the years large and small scale projects have followed. Significant installations have taken place through the years resulting in more than 2,500 pieces of artwork, which appear in all of the patient rooms, the hallways and public areas to ease the stress and improve the patient/visitor and staff experience.

The Healing Arts Program will now continue to improve the aesthetics of our buildings with the acquisition of artwork for our new AtlantiCare Medical Arts Pavilion in Atlantic City, NJ. An arts advisory committee is guiding the selection of artwork, which will enhance the healing environment in this new construction.

PHASE ONE ARTISTS – PLEASE RESPOND TO THIS CALL BY MARCH 8, 2022

All artwork should embody the theme of healing through nature and should demonstrate a sense of connection with community.

Vestibule/Main Entrance: \$15,000

The glass-enclosed vestibule will benefit from a hanging mobile sculpture. The vestibule is shaped as a triangle – the dimensions of the vestibule are 29' 5 ½" wide across the back and the vestibule itself is 11' in diameter. Sculpture would hang from the vestibule's ceiling, which is 24' 10 ¾" above the first floor. Doorways have a height of 10'. We are suggesting a sculpture that is either static or kinetic in nature. We are open to artist expertise and suggestion on engineering and design.

Main Waiting Area: \$18,000

Creating a gallery experience along this expansive space would best support this area. Mural, painting, mosaic, tile work, mixed media will all be considered. Commission would support three separate wall spaces – Wall A piece should measure as close to but no larger than 4' h x 4' 3 ½" w, Wall B piece should measure as close to but no larger than 4' h x 24' w, Wall C piece should measure as close to but no larger than 4' x 21' 5" w. Art should coordinate or complement each other. These pieces will be installed in the main waiting area on the second floor and be located outside of the Maternal Fetal Medicine and Family Planning areas.

MEDIA AND SIGNATURE SPECIFICATIONS

Original Artwork Media:

All original artworks are to be created on a durable media suited to the medium and professionally finish coated for the respective medium.

REQUIRED APPLICATION MATERIALS AND GUIDELINES

Artists who wish to be considered must submit the following materials (collated and in this order):

- Application checklist & entry form (last 2 pages of this document).
- Digital images of past work with annotations. (35mm slides will not be accepted.)
- A drawing or photos of your proposed art piece along with the dimensions.
- A narrative description of the design, material and color. If any forms of symbolism are used as an element in the proposal, please describe the meaning.
- A professional resume detailing prior experiences, list and/or description of exhibitions, with a list of references for past commissioned work, and a brief statement describing artistic style (if you are applying as a team we need one for each person).

Please closely observe the requirements and guidelines for the application materials as detailed below:

➤ **Entry Procedure for Digital Images**

There is no entry fee. Applicants may submit a maximum of 20 images showing at least 5 different artworks on a CD or flash drive with the completed entry form. Label the CD or flash drive with the artist's name. Please do not include the name of the artist's gallery, assistant, or representative on the label.

- Digital entries must be in JPEG format on a CD or flash drive.
- Image must be correctly oriented (vertical or horizontal).
- No digital enhancement is allowed
- JPEG file name should correspond with your CD/flash drive Inventory List.
- Include a 8x10 hard copy of each image; indicate the title of artwork, medium, dimensions, date artwork was created, and location. For previous commissioned projects, please also list the commissioning body, budget, date of completion, and project manager (with telephone number). If you are submitting images of past work that cannot be understood plainly through imagery alone (such as installations, integrated artwork or teamwork), please submit brief descriptions for each work that you believe needs further explanation. Where appropriate, please be sure to specify what your contributions, as the artist, were for projects involving teams, integrated artwork or collaborations with architects, etc. Details about the goals or challenges for each project and your solutions are also permitted. Brevity is the most effective way to communicate your ideas to the Art Committee.
- Please clearly indicate which projects were created by an artist team and whether the members of the team are the same or different than the team of artists submitting an application for this project.

Artists who are selected finalists may be asked to:
